

## Graduate to a More Reliable, Scalable, Video Surveillance System With DVTEL...Now you can.

Schools, universities, hospitals, healthcare institutions and other campus environments are experiencing a rise in the demand for dependable, scalable surveillance systems.

From the camera to the control room, DVTEL offers HD IP broadcast quality cameras, video analytics, mid-sized to enterprise video management software solutions and an industry first app – TruWitness – that turns smart phones into live streaming CCTV cameras within the network. Imagine having the ability to turn campus security personnel into live camera operators at the scene of an incident. With TruWitness...Now you can.

DVTEL is proud of its work in delivering end-to-end innovative video solutions to secure campuses and healthcare organizations around the globe.
