

DVTel Warns Against Counterfeit ioimage Products

Ridgefield Park, NJ, February 15, 2011 — DVTel, Inc., a multiple award-winning market leader in Smart Security Solutions, announced today they are warning against counterfeit ioimage products being sold and distributed.

Since DVTel's acquisition of ioimage in March 2010, it has been discovered that counterfeit ioimage products, including software and intelligent video analytics edge devices, are being manufactured and sold both as ioimage clones and as original ioimage products. This manufacture and sale of counterfeit ioimage products is entirely without the approval or authorization of DVTel.

The distribution, sale, re-sale, purchase or use of counterfeit products is illegal worldwide, and may subject **all** persons and entities involved to civil and/or criminal penalties. To the extent that any DVTel authorized distributor or value added reseller is involved in such illegal activity, it is risking legal action against it, including the imposition of severe civil and/or criminal penalties.

The counterfeit products are inferior to genuine, authorized ioimage products. Further, genuine ioimage product sales provide vital feedback into R&D for future product development, which benefits DVTel and its customers.

All persons involved in the distribution, sale, re-sale, purchase or use of counterfeit ioimage products should be aware that DVTel will use all legal means at its disposal to enforce its intellectual property rights in ioimage products, including ioimage software, and will pursue those involved in counterfeiting wherever they may be found.

Accordingly, we strongly recommend verification that the products being distributed and resold are original, authorized products fully supported by ioimage, so that purchasing, distributing, selling, re-selling or using any counterfeit products is avoided.

“Please let us know if you become aware of anyone distributing, selling, or re-selling counterfeit ioimage products, including software,” said Eli Gorovici, DVTel President and CEO. “DVTel and our partners are harmed by these counterfeit products, and we all must do our best to stop their unauthorized and illegal sale and distribution.”

About DVTel

DVTel develops, designs, and provides smart security solutions that help protect critical infrastructure -- in transportation hubs, city centers, nuclear and power facilities along with buildings and campuses of corporations, educational institutions and government facilities. We tie together leading edge IP-based cameras and encoders, with built-in analytics capabilities that detect and report security threats, creating a powerful security

“edge”. Using our Intellectual Property for the design and integration capabilities, we manage these edge devices through our versatile and highly scalable Latitude video management system. DVTel's solutions address the security needs of single locations requiring as few as two to three cameras, as well as those with global operations and thousands of video channels spread throughout a continent or around the world. DVTel 反假冒 ioimage 产品通告

瑞吉菲尔德公园，新泽西，2011年2月10日 – DVTel有限公司，因其智能安防解决方案而屡获奖项的产业领导者，今日宣布对公众发出告诫，不要进行假冒的 ioimage 产品的销售及散布。

自2010年3月DVTel收购ioimage以来，ioimage的假冒产品（包括软件、智能视频分析前端设备）正在以ioimage仿制品或原厂产品的名义被制造并销售。此类制造及销售完全没有获得过DVTel的许可或授权。

散布、销售、转售、采购以及使用假冒产品的行为在全球都是违法的，许多违法者都受到了民事及/或刑事处罚，其中包括个人和机构。如果有任何DVTel的授权分销商或增值代理商参与了此类违法活动，其将承受法律诉讼的风险，包括严重的民事及/或刑事处罚。

相比于原厂正装的ioimage产品，假冒产品品质低劣。此外，只有原厂正装产品的销售可将用户至关重要的反馈传达至DVTel的研发部门以促进更深入的产品研发，从而令DVTel及其用户获益。

所有牵涉到ioimage假冒产品散布、销售、转售、采购及使用的人员应该意识到，DVTel将会自主地使用所有的合法手段维护其在ioimage产品上的知识产权，包括ioimage软件，并会追诉所有侵权行径，无论其发生在何处。

由此，我方强力建议用户验证正在被分销或转售的产品是否为享有ioimage完全支持的原厂正装的、授权产品，从而避免采购、散布、销售、转售或使用任何假冒产品。

“如果您发现任何人在散布、销售或转售假冒的ioimage产品，包括软件，请告知我们” DVTel董事长兼CEO Eli Gorovici说，“DVTel及我们的合作伙伴遭到这些假冒产品的伤害，我们必须全力制止他们未经授权并违法的销售和散布。
