

MEDIA ALERT

DVTel Joins the Physical Security Interoperability Association (PSIA)

Ridgefield Park, NJ, February 3, 2010 -- DVTel, Inc., multiple award-winning market leader in the development and delivery of intelligent security solutions over IP networks, today announced that it has joined PSIA as an associate member in continued support of the company's efforts to promote standards within the IP-based physical security market.

As a leader in providing IP cameras and networked video management solutions, DVTel has been watching the progress of PSIA and understands that it is important to support the activities of the group and to provide feedback based on a decade of experience.

DVTel is committed to open standards and has been providing open platform, IP-based physical security solutions to its customers in the enterprise, government, education, transportation, gaming, hospitality, and correction markets for nearly ten years. DVTel has the largest number of end-to-end IP-based physical security solutions installed worldwide and as such, has a vested interest in supporting all the efforts of PSIA and becoming an active member within the association.

PSIA is a global consortium of physical security manufacturers and integrators that are focused on promoting the interoperability of IP-enabled devices across every segment of the security industry. Under the direction of its Board of Directors, PSIA promotes and develops open standards relevant to networked physical security technology including video surveillance, access control, video analytics and recording solutions. To date, more than 950 industry leaders have downloaded PSIA's specifications. For more information, visit www.psialliance.org.

About DVTel

DVTel is the pioneer and dominant market player in the creation, development, and delivery of Multi-source Intelligence Systems over IP networks, our software and hardware solutions create superior value by providing customers a unique level of freedom to focus on what's most important—their primary business goals. DVTel has the largest installed base of end-to-end IP physical security solutions in the world and is the recipient of over a dozen awards for products and innovation.
