

## **MEDIA ALERT**

### **DVTel Announces Revamped Architects and Engineer Program**

*New Release Supports Additional IP-Based Edge Devices*

**Ridgefield Park, NJ, March 18, 2010** -- DVTel, Inc., multiple award-winning market leader in the development and delivery of intelligent security solutions over IP networks, announced today that they have released an updated program for the A&E and Consultant community.

Bill Morehouse, Director of the A&E Consultant Program, made the statement, “DVTel understands how important this community is when selecting state-of-the art solutions. DVTel is committed to providing the proper tools so that we can better serve consultants with their needs.”

The updated A&E Program will consist of the following:

- Director dedicated to supporting the program
- A&E area on the website
- Resource Tools – hard and soft copy
- Series of seminars to be held around the US and Internationally
- Series of webinars about specific installations and technology
- White papers specific for the A&E community

DVTel’s iSOC solution is an end-to-end IP-based physical security solution and includes video surveillance, intelligent video analytics from ioimage and a full line of IP cameras and edge devices. To see more, stop by booth #21077 at ISC West.

You can reach Bill Morehouse at [bmorehouse@dvtel.com](mailto:bmorehouse@dvtel.com) or at 281.458.9929.
