

Technical Certification Training

Latitude NVMS V5

This course is intended for Installers and Integrators of the DVTel line of IP-based physical security products. The goal of this course is for attendees to learn how to install, configure and operate DVTel's Latitude Network Video Management System (NVMS™), including servers, client workstations and associated hardware. The course also covers troubleshooting procedures and techniques.

Strong computer skills, basic networking knowledge and a CCTV background are recommended for this course.

Objectives

Upon completion of this course the student will be able to:

- Understand networking principles as they relate to the Latitude NVMS System
- Perform software installation and configuration of Latitude NVMS Servers and Clients
- Perform all System Administrator functions, resulting in complete system configuration of the Latitude NVMS system using the AdminCenter software
- Perform all Operator/Guard functions using the ControlCenter software
- Perform installation and configuration of DVTel Encoders/Decoders and IP Cameras

(Classes are held from 9:00 a.m. - 5:00 p.m.)

Registration

Name: _____

Company: _____

Address: _____

Phone Number: _____

Fax Number: _____

Email Address: _____

Purchase Order Number: _____
(Please Attach Copy)

Registration closes five days before the scheduled course date. Classes with fewer than three attendees will be cancelled or rescheduled.

You will be billed directly for the cost of training. Cancellations within two weeks of a scheduled training session are non-refundable.

Each person is responsible for his or her travel expenses and for arranging their own accommodations.

Only two seats from one organization can be confirmed for a single training session. If seats become available within two weeks of a training session, they will be opened up for stand-by registrants.
