

DVTel Hires President of Product Group
New leader will take DVTel's iSOC Platform to the next level

Ridgefield Park, NJ, January 4, 2010 -- DVTel, Inc., multiple award-winning market leaders in the development and delivery of intelligent security solutions over IP networks, today announced that Igal Dvir, CTO from Nice Security Group, will oversee DVTel's Product Group as the new President of DVTel Ltd. Under this new management structure, DVTel will have a broader focus on both software and hardware development continuing the mission to be both complete and open.

Dvir brings with him a successful tenure at Nice Systems (NICE: NASDAQ) where he moved his way through the ranks of product development, most recently as the CTO of the Security Group. His distinguished career has seen him responsible for technology roadmaps, industry standardization, R&D, cross division synergy, and merger & acquisition integration within engineering as new companies were purchased.

Dvir is the founder and leader of VULCAN (Video Understanding Learning Content and Notification), a five year program from the Israeli Chief Scientist. This program is cooperation between leading security industries and academia researchers developing generic technology in the field of analytics for security.

Igal has is B. Sc. And M. Sc. In Electrical Engineering from Tel-Aviv University. His long list of intelligent video patents shows he's a proven leader in industry innovation.

"I am pleased to be joining DVTel at such an exciting time" Dvir commented, "with their IP-based edge devices, software solutions and growing product base expanding through development and acquisitions – DVTel is positioned to lead the industry. I am looking forward to being a part of their amazing growth."

"Enough good things can't be said about Igal." said Eli Gorovici, DVTel President and CEO. "For those who have worked with him and for him, he is known to be one of the brightest minds in physical security today. His contributions at NICE propelled their success in video and we look forward to having his talent and ingenuity at DVTel as we take the next step in growing our intelligent Security Operations Center suite of products. The key to our future is the continued successful development of our unified open-platform IP-based solutions for video, access control, video analytics and all manner of data acquisition, analysis, and action. We are pleased with our progress to date, and we are excited about our continued future success under Igal's leadership."

About DVTel

DVTel is the pioneer and dominant market player in the creation, development, and delivery of Multi-source Intelligence Systems over IP networks, our software and hardware solutions create superior value by providing customers a unique level of freedom to focus on what's most important—their primary business goals. DVTel has the largest installed base of end-to-end IP physical security solutions in the world and is the recipient of over a dozen awards for products and innovation

DVTel's unified intelligent Security Operations Center (iSOC) V6 combines Longitude IPAC, Latitude Network Video Management (NVMS), video analytics capability, as well as other powerful management modules to create a rich integration platform that offers a single, highly intuitive graphical user interface. iSOC V6 is the only open standards, IP-based security management center that unifies all video, audio, data, access control, trend analysis and alarm management functionality into one enterprise physical security center.

DVTel is leading the transition from closed, proprietary security systems to open, standards-based platforms. Our unified solutions leverage existing network infrastructure while providing unmatched levels of flexibility, scalability, cost-effectiveness—all backed by superior customer support. We are the solution of choice worldwide for mission critical and enterprise level installations and our systems are found in thousands of installations around the globe.
