ioimage HD Analytic IP Camera

DVTEL's new ioimage HD camera gives you HD broadcast-quality IP video coupled with military-grade analytics.

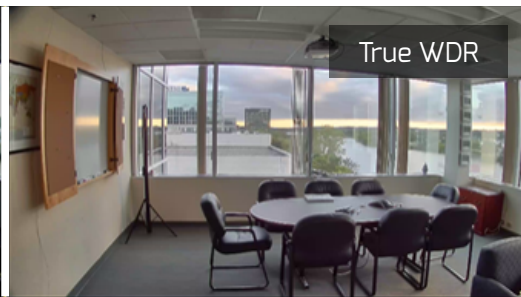

Experience military-grade analytics with DVTEL's high-resolution, low-bandwidth, predictable storage HD camera.

- Offers high-sensitivity 2.1MP Full HD 1080p and 1.3MP HD 720p resolutions with WDR and integrated high-end analytic performance even in harsh lighting conditions.
- The camera is DVTEL's first HD analytic camera that includes state-of-the-art ioimage analytics and is capable of dealing with the most extreme lighting conditions encountered in surveillance applications.
- The ioimage HD camera delivers pristine HD picture quality under low-light and high contrast lighting conditions - contributing to overall cost savings in lighting installation, power consumption and total cost of ownership (TCO).

Digital WDR

True WDR

Easily setup and deploy powerful analytics

- Integrated web setup allows for easy, intuitive setup of the camera and analytic behavior.
- Solo setup by one person reduces installation time and manpower requirements.

Product Highlights

- HD IP fixed camera with built-in analytics
- Two sensor options: 2.1MP Full HD 1080p and 1.3MP HD 720p
- Easy, intuitive camera and analytics setup
- Integrated into DVTEL Latitude VMS and Horizon and Meridian NVRs
- ONVIF Profile S support for other VMS integrations

Key Usages

- Remote monitoring
- Critical infrastructure
- Perimeter security

Key Detection Types

- Intrusion detection
 - Regional entrance
 - Tripwire
 - Fence trespassing
- Unattended baggage
- Object removal
- Stopped vehicle
- Loitering
